# ABOUT US

*RM Design-Build is primarily engaged in providing and integrating various types of mechanical engineering services.*

*We offer comprehensive solution packages that encompass design, construction, implementation, testing, commissioning, and maintenance for our customers.*

# MISSION

*Our mission is to build a reputation with integrity, excellence, and leadership as one of the outstanding mechanical contractors providing personnel who are well-experienced in design, installation service, and controls to clients nationwide.*

# VISION

*Our vision is to be the preferred and most recommended mechanical engineering company that provides overall customer satisfaction with quality products and excellent service.*

## ZOREN L. REDULLAS

Managing Director

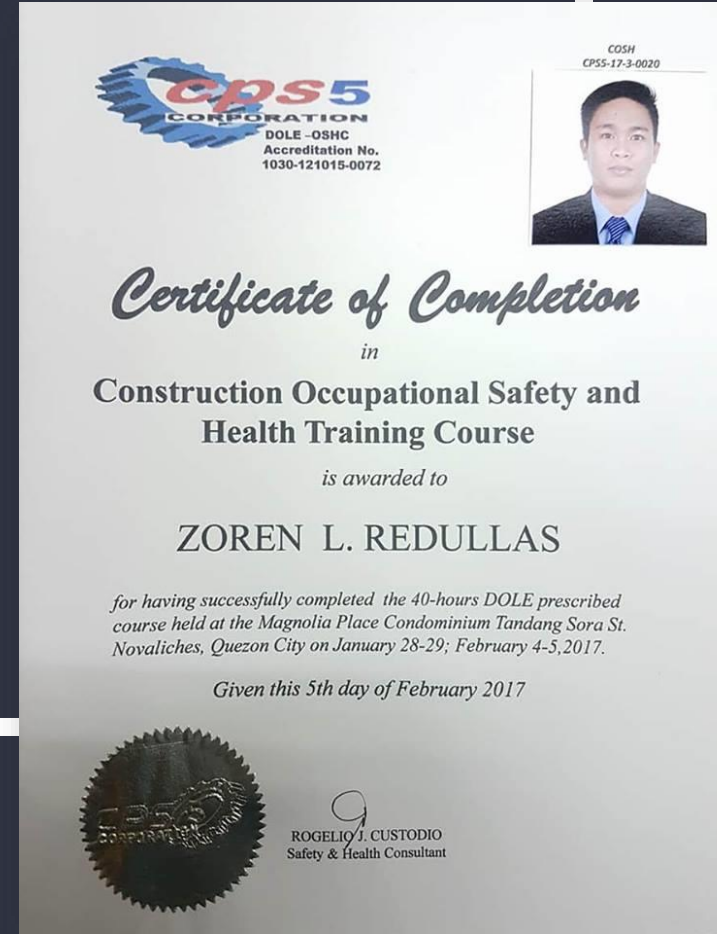

While working as an employee, he learned diverse mechanical engineering work types that fueled his ambition and dedication. Through seminars and networking, he further developed his potential in the industry.

Since 2013, he has built a successful business through trust and belief from supporters.

In 2017, he received accolades as a Certified Safety Officer, Authorized Managing Officer, and in Lost Control Management.

As an industry pioneer, he garners immense respect for his strong moral principles. Leveraging his extensive experience, he consistently delivers timely, cost-effective, and professional services to clients.

# CERTIFICATIONS

# SERVICES OVERVIEW

*Our core business provides quality mechanical engineering services, specializing in mechanical plan design-build for air-conditioning works, ducting works, fire protection works, fire detection alarm system works, fire suppression system works, and gas line works in both residential and commercial premises.*
